How can I use the Joker.com system?

The Joker.com Registrar System

You have to [register](#) yourself at Joker.com to be able to use the system, and order or renew domain names.

Registration is an easy step - we only need a **login name** and a valid **email address** from you.

A password will be sent to this email address.

If you have forgotten your password, please use the link "**send password**" in the login/register menu.

A new password will be sent by email.

Please also consider the activation of our [Two-factor-authentication](#), which provides a high level of security for your account.

Why did I receive an email than links to a Joker.com password?

Joker.com Password Handling

There are at least four possible scenarios:

- you did register yourself at our website [Joker.com](https://joker.com).
- you have forgotten your password and requested a new one via the Joker.com website.
- someone has tried to register your email address. If it wasn't you, **please just ignore it.** Someone else may have just made a typing mistake with the email address. You won't get harmed.
- your email address is associated with a user registered with us, and someone has entered that username and pressed the "Send me my forgotten password" button. Sometimes a customer enters the wrong username (e.g. due to a typo) for which a new password should be generated. **You can safely ignore this, it has no effect on you or your access.**

Joker.com only sends references to newly generated passwords by email. These are only ever sent to a unique combination of username and email address. You will never see the password of another user!

Joker.com stores passwords exclusively in the form of so-called hashes, in a recognized cryptographic process. Therefore Joker.com can never send or display your old password.

Please also consider the activation of our [Two-factor-authentication](#), which provides a high level of security for your account.

How could I change my email address?

Change of Email address

If you are logged in, you can **change your email address** by visiting ['My Joker' => "My Profile"](#).

There you will find the "**change email**" form.

This procedure will send a **verification link** to the new email address. The old address remains active until this **verification link** has been clicked.

Please also consider the activation of our [Two-factor-authentication](#), which provides a high level of security for your account.
