

1.9 Nameservice

How do I change my name servers?

Change of Name Servers

To change the name servers associated with a domain, please

- log in at Joker.com and visit '[My Domains](#)', selecting '**Modify**' with the domain you want to change
- click on edit symbol  to add your own name servers, **or to chose "Joker.com name service"**

The change should be visible in Joker-DNS **after at most 45 minutes**. The old data may linger in some external DNS caches for up to 86400 seconds = 1 day.

If you have chosen "Joker.com nameservice", you now may add name server entries (records) to your domain, including [URL forwarding rules, email addresses or hostname records](#) by visiting '**DNS**' in "[My Domains](#)'.

To edit an existing name server or add a new one, visit My Joker -> [My Nameservers](#) and either click on '**create new name server**' to create a new name server or click '**change**' next to the nameserver you want to change. You will then be able to edit the DNS name and IP addresses of your nameserver.

If you have assigned **your own external name servers**, you have to use the tools provided by your DNS provider to add DNS records.

Unique solution ID: #1103
