# 1.3 Domain Registration How to grant roles (= grant permissions to others)?

## **Roles and Permissions**

You can always **invite** additional individuals (besides you) to **administrate** your domain(s). For this, you can assign so-called **"roles"** to other people, which define what sort of access is granted.

**Important:** These "roles" solely allow you to grant access to your domains **within Joker.com**, they do not have any impact on what is shown in Whois as published contacts.

As you invite someone to access to your domains, a special link is sent to the email address you provide.

If the invitee does not already have a Joker.com login, he will get a chance to register when he clicks the link in this email.

Enter a "Description" to name the individual grant to be able to identify your grants later. You can always issue grants or revoke existing grants in <a href="My Domains">My Domains</a>.

**In case you are a Joker.com Reseller**, you may also use the additional option '**Direct assignment**' to assign roles. This means that you can assign permission to another Joker.com account, which takes effect instantly, and no invitation will be sent. This means that with "**Internal Transfer**" and

logins.

<sup>&</sup>quot;Direct assignment" you can move (transfer) domains between different - also your own - Joker.com
