## 1.15 What is... What is an "OT+E" System?

## **OT&E Systems**

OT&E means "Operational Test & Evaluation".

This usually is the name for *testing and evaluation* systems, where activities never will affect "real" data or assets like registered domains or contacts.

Our OT&E system is a kind of "copy" of Joker.com, where special "fake" registries are connected. Domain orders and object manipulations can be performed without having to operate on real data.

This is to allow **resellers** to **try out** their scripts and methods, using Joker.com **API** and tools.

Our OT&E system mainly consists of

- <a href="www.ote.joker.com">www.ote.joker.com</a> (standard web frontend)
- <u>ote.rpanel.io</u> (rpanel reseller frontend and code example)
- dmapi.ote.joker.com (Joker.com API)
- whois.ote.joker.com (Whois)
- reseller@ote.joker.com (Mail-Gw)

In case you are interested in using these systems, please consider <u>becoming a reseller</u> of Joker.com.

Resellers do benefit from discounts of up to 40% on all prices.
