

1.15 What is...

What is a 'Premium Domain'?

Premium Domains

[Premium Domains](#) usually are domains not available at the normal/fixed rate for this type of domain.

There are these major types of premium domains:

1. registered domains offered by **global networks**, run by companies, with individual prices; have to be purchased by transferring the domain
2. domains offered by the **registries** at special rates, to be purchased using domain registration
3. **expired domains** - domains which have not been renewed by their former owner, currently at the end of the [RGP](#) phase

Joker.com does offer all types of premium domains. Most of them are available using the regular order process. For the RGP expired domains, there is a [special section](#) to order these.

Domains of the first type have to be transferred during the order. This usually happens in real time, because those domains are already prepared for "fast transfers".

Prices do cover a wide range - if you need the right domain name for your new business, [you probably will find it here](#).
