## 1.15 What is... What is a 'Premium Domain'?

## **Premium Domains**

<u>Premium Domains</u> usually are domains not available at the normal/fixed rate for this type of domain.

There are these major types of premium domains:

- 1. registered domains offered by **global networks**, run by companies, with individual prices; have to be purchased by transferring the domain
- 2. domains offered by the **registries** at special rates, to be purchased using domain registration
- 3. **expired domains** domains which have not been renewed by their former owner, currently at the end of the <u>RGP</u> phase

Joker.com does offer all types of premium domains. Most of them are available using the regular order process. For the RGP expired domains, there is a <u>special section</u> to order these.

Domains of the first type have to be transferred during the order. This usually happens in real-time, because those domains are already prepared for "fast transfers".

Prices do cover a wide range - if you need the right domain name for your new business, <u>you probably will find it here</u>.
