

2.5 Reseller Control Panel

The Reseller Control Panel

RPanel Next is the next generation of our [Reseller Control Panel](#). ↗

It has been created from scratch, focussed to provide you with the ultimate tool to handle all needs of a domain's business.

The application is pretty self-explanatory, but here is a short list of what's important to know about this tool. But you definitely should [give it a try](#)!

- **Login**

Click [this link](#) or type <https://rpanel.io/> into the address bar of your browser. Use your known login credentials to login. (In case you aren't a reseller yet you can become one [here](#) in 3 easy steps).

Once logged in, you'll see an overview of your account, your current balance, your ID and information about the number of domains you have. Additionally, current news and promo activities are provided, and a history your activities from the last 30 days is available.

Filtering/searching is always possible using the header input fields on top of the table columns.

Click on "domains" in the top menu and select "overview". In this view you see all your domains in a table from which you can modify every aspect of the domains. With a click on "register" in the top right corner you are able to register new domains. All these actions can be done from this overview table but you can also select the respective menu item from the domains menu on the top.

- **Contacts**

Click on "contacts" in the top menu to get an overview of all existing contacts. If you click on the contact handle you see all details about this specific contact. Clicking "modify" or "delete" on the right site lets you modify contact info or delete a contact altogether. Deleting a contact has to be confirmed in the next step. The create button in the top right corner lets you create a new contact.

- **Nameservers**

2.5 Reseller Control Panel

If you like to add new nameservers you can do this under the menu item "Nameservers". Create new ones or create a template for nameservers which you can use afterwards.

- **Language**

Lets you switch between German and English. Those changes are not persistend. To change the default language, click on the user icon next to "language" and select "settings".

- **Settings**

This is found under the profile icon. From this menu item you can edit your default language, your preferred date/time format, if and when you want to get notified when your balance runs low and if you want to activate or deactivate domain autorenew globally.

- **Execute Request**

This is found under the profile icon. Here you can enter and execute DMAPI requests. Please check the DMAPI area in this FAQ for more information on that.

- **Feedback**

This is found under the profile icon. Please provide us with feedback to further improve our new RPanel. Every kind of constructive feedback will be greatly appreciated.

- **Logout**

2.5 Reseller Control Panel

This is found under the profile icon. You are logged out automatically after a certain time of inactivity. If you are working on a shared computer or want to switch accounts you can log out here.

- **Cart**

If you registered any domains you have to check out your cart. Here you can add whois privacy to your domains if possible, change the registration period, auto renew status and configure the domain(s) (add contact information or nameservers).

*) we are also providing the previous version of Rpanel (V1), now available as rcp.joker.com
