1.16 FAQ for specific Top Level Domains .CN: How to get registrants of .cn domains verified (RNV) .CN Domains - Real Name Verification (RNV)

After registration, renewal or transfer of a -cn domain, there are special requirements of the registry CNNIC to meet before the domain will become active.

Update: As of August, 1st 2022 .cn domains can only be <u>renewed</u> when the Registrant Contact ID has passed RNV!

- a .CN registration or transfer will show a "PENDING" status within the first 5-days from registration submission
- a .CN registration or transfer will by-pass the PENDING status only if the REGISTRANT ID (see below) has previously been verified (or whitelisted) by CNNIC
- supporting documents (see below) have to be <u>uploaded here</u> after the registration or transfer, or in case the RNV is requested for existing .cn domains (you have to be logged in to upload the documents)
- in the event that the supporting documentation provided does not match the Registrant Name or if no supporting documentation is submitted, the Real Name Verification will FAIL and the domain name will then be deactivated until a correct set of supporting documentation is received and accepted by CNNIC.
- a .cn domain which can not be renewed because of a missing or failed Real Name Verification (RNV) will be deleted
